❖ Slogan:

“The children are the future of our society and the elders are venerable to us”

❖ Mission:

❖ Help Needy students for their studies

Education is an important stage of life that we take for granted sometimes in the west. It is the stepping stone of a life of achievements, that opens new horizons for each child. There are part of the world that children struggle to reach that important step in life, from the lack of supplies for their daily needs at school, like food, clothes and materials to use for their studies. More than half of those children's abandon school in an early stage, or they will choose not to study at all, as they won't afford the living expenses. Seeing students who don't have any shoes to wear (they have slippers but it's already overused), no decent uniforms to dress, no food for recess and no financial support for education. POVERTY is what hindering them to achieve their dreams and goals in life. It is well documented that poverty decreases a child's readiness for school through aspects of health, home life, schooling and neighborhoods but as what I have seen they really work hard just to pursue their studies. Seeing them doing multitasking every day, working and studying at the same time, as many needs to stay away from their family and work in exchange for their education basics. I was like putting myself on their situations, I can't definitely surpass those but how come they can? They are the young generations who don't have anything but only a heart eager to be successful despite of the lacking of financial support still they're easing the tiredness just to provide their needs for their schooling. God hears their prayers and also you have the opportunity to help and inspire them for we are accepting donations for the studies of this students.

❖ Going to setup old age home for the aged

One of the most neglected sections of our society is senior citizens. In our busy lives, we often forget to take out time to talk to the elders in our own homes, let alone lend a helping hand to the ones we're not related to. However, Friends Fellowship NGOs in the state which are helping the elderly live fulfilling, dignified lives.

They have several programmes through which they try to change the social and economic conditions of the elderly. ❖ Disaster Recovery

A natural disaster is a major adverse event resulting from natural processes of the Earth; examples are floods, hurricanes, tornadoes, volcanic eruptions, earthquakes, tsunamis, storms, and other geologic processes. When a disaster strikes, recovery efforts led by people who live and work in affected communities are often overlooked and underfunded. The Disaster Recovery Network at Friends Fellowship is changing this reality. Since 2015, we've been shifting decision-making power to crises-affected communities through trust-based grantmaking and support. We make it easy, quick, and safe to support people on the ground who understand needs in their communities better than anyone else.

PROUD TO SAVE A ELDER'S LIFE

Before

After

Sunita Devi

Sunita Devi: Let's hear how Friends Fellowship Haldia rescued a woman named Sunita Devi from the sidewalks of the city center, haldia giving her a new lease of life and returning her to her own home. It was on December 25, 2022 the day the President of Friends Fellowship Haldia saw her in distress at the intersection of City Center, Haldia. After keeping an eye on her for 3 consecutive days, the team of Friends Fellowship Haldia rescued her on the chilly evening of December 28 at around 6 pm. At that time, Sunita Devi was wearing a torn saree, holding a stick and a small bag. In this condition, she was brought to the Maa old age home. A strong stench was coming out of her body. The Maa old age home staff bathed her and changed her clothes.

FRIENDS FELLOWSHIP HALDIA

REGISTERED OFFICE : SAHOOBAZAR, BARBASUDEBPUR, SUTAHATA , HALDIA-721645

Then we noticed that she was not talking to anyone, was muttering to herself, shouting for no reason, even coming forward to beat the staff of the home. As a result we realized that he was a mentally unbalanced person. Day by day her nuisance continued to increase. She didn't want to take a bath. She was forced to bathe every day. She used to get angry with the one who bathed and changed her clothes. She used to eat more than she needed and after eating, she kept a lot of food in her bag for the next day, just like she used to do when she was on the pavement. She used to keep other people's things with herself. Seeing all these reactions, she was treated by psychiatrist Dr. Indrajit Sengupta. She would almost fall asleep after taking the medicine as prescribed by the doctor and would have the same reaction after waking up. At this time she used to leave the home by opening the gate, chasing the children on the street. Thus seven months passed and we noticed many changes in her. There was a change in her personality. She became a calm person, kept doing her chores, got along with everyone in the home, helped other elders as needed. These changes in her made her a normal human being. She started going for morning walk in the morning with the old people of the home, talking openly with everyone. The turbulent atmosphere of the old age home calmed down. After that she sometimes talked about her house, address, children, which was unimaginable to us. But then we realized that her past memories were coming back little by little and she kept expressing her desire to go home. To fulfill her wish we verified the address given by her and decided to take her home after consultation with the police. Then on 4th of July our team made all the necessary arrangements and got her on the train. On 5th July, she went alone to her sister's house in Salaiya village in Bihar.
